

Join the Christmas Light Committee

Over the past several years we've only had a few Christmas lights on our poles. It's time to wake up our town and work on getting new lights. The committee will meet to discuss fundraising and acquiring new lights before the 2022 holiday season. Please consider joining the Christmas Light committee and help us to achieve our goal and make the holidays brighter for our borough!

Since we are short on lights we hope everyone will get into the holiday spirit and deck the halls by decorating your house, yard, porch, garage, & store fronts. Lets light up our town!!! Show your holiday spirit.
